What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

Why should you choose a battery cabinet?

Our battery cabinets are sophisticated and offer modular solutions that can withstand even temperatures and earthquakes when it matters. **VENTILATION:** Our cabinets are specially designed for the use of stationary batteries. One important factor here is ventilation, both for cooling and for the removal of hydrogen (H₂).

Why do you need a batteryguard Battery Cabinet?

A battery fire can devastate your business. With a Batteryguard battery cabinet, you charge and store your batteries with complete peace of mind. You protect your staff, prevent damage, and meet the requirements of your insurer. And in some countries, you may even benefit from financial incentives or grants.
