---

India added 518 MW of solar open access in the first quarter (Q1) of the calendar year 2023, marking a remarkable increase of more ...

German energy group RWE AG (ETR:RWE) and Greek power utility PPC SA (ATH:PPC) have taken the final investment decision to ...

Envestra today announced the completion of Helena Energy Center, a 518 MW combined wind and solar project located in Bee County, South Texas.

RWE AG and PPC SA have finalized their investment decision to construct two solar parks in northern Greece, with a total capacity of 567 MWp/518 MWac. This collaboration ...

The Helena Energy Center is comprised of a 268 MW wind farm and a 250 MWac solar farm. It has contracts with multiple corporate ...

RWE and PPC will construct two new solar projects in Greece's Northern Macedonia totaling to a 567 MWp capacity at a cost of EUR418 million.

Envestra has completed the Helena Energy Center situated in Bee County, South Texas. It is a combined wind and solar project with a total capacity of 518 MW. The wind and ...

Solar farms Kotyli and Neo Syrakio would have a total peak capacity of 567 MW, translating to 518 MW in grid connection terms. Commissioning expected in 2027 Construction ...

Envestra announced the completion of Helena Energy Center, a 518 MW combined wind and solar project located in Bee County, South ...

The solar farms Kotyli and Neo Syrakio will have a total capacity of 567 MWp (518 MWac). Construction is planned to start this ...

sted announced the completion of Helena Energy Center, a 518 MW combined wind and solar project located in Bee County, South Texas, USA. The Helena Energy Center ...

Solar farms Kotyli and Neo Syrakio would have a total peak capacity of 567 MW, translating to 518 MW in grid connection terms. Construction is planned to start this spring, ...

German energy group RWE AG (ETR:RWE) and Greek power utility PPC SA (ATH:PPC) have taken the final investment decision to build two solar parks in northern ...

sted has announced the completion of the Helena Energy Center, a 518 MW combined wind and solar project located in Bee County, South Texas. According to the ...

The solar farms Kotyli and Neo Syrakio will have a total capacity of 567 MWp (518 MWac). Construction is planned to start this spring, with commissioning expected in 2027.

India added 518 MW of solar open access in the first quarter (Q1) of the calendar year 2023, marking a remarkable increase of more than 68% compared to the 308 MW ...
