What is a 60kW - 360kW DC fast charger?

With sealed, enclosed and modular internal components that can be accessed from all four sides, these 60kW - 360kW DC Fast Chargers from Blink are designed for optimal performance over a wide range of environmental conditions and site locations.

What is pev3106e 60kW DC charging station?

In collaboration with our esteemed Indonesian client, we successfully installed the PEVC3106E 60kW DC charging station. This cutting-edge solution provides rapid and reliable charging for electric vehicles, contributing to Indonesia's sustainable transportation goals. Amazing! Share this case.

Does SCU provide a lithium-ion battery UPS data center solution?

Recently, SCU, as a reliable lithium-ion UPS data center solution provider, provided a lithium-ion battery UPS data center solution for a data center in Indonesia. The solution was adopted and successfully implemented, providing it with important power support to ensure Servers, storage and other IT equipment can continue to operate.

Is lithium-ion battery UPS a good option for data centers?

Advanced lithium-ion UPS technology is more popular than traditional lead-acid batteries and is gradually becoming an indispensable power solution for data centers. Recently, SCU, as a reliable lithium-ion UPS data center solution provider, provided a lithium-ion battery UPS data center solution for a data center in Indonesia.
