What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is a telecom shelter & cabinet?

New telecom shelters & cabinets include excess inventory from various manufacturer's facilities. Used Telecom Equipment Represents a Typical 60% Savings Over New. Surplus Communication Equipment Averages 25% Savings or More. Secured against intruders. Some shelters include generators, ATS, AC units with controllers, and other equipment.

What are surplus Telecom shelters & cabinets?

Choose from a wide range of structure sizes, from small-profile 67" x 67" x 7" to larger units in the range of 24" x 36". Surplus telecom shelters & cabinets are structures that are new but have never been installed. Used telecom shelters & cabinets are structures that have been installed at one time but now have been dismantled.

Why do I need a telecommunications cabinet?

These cabinets also make it easy for technicians to reach the ports they need to expedite service. Patch panels: If your telecommunications system incorporates patch panels to connect and manage your incoming network cables, you can keep them safely stored in your cabinet.
