Discover our FOCUS, from requirement collection and CFD simulation to prototype manufacturing and reliability testing, helping you build high-performance liquid cooling solutions.

We have developed various types of battery liquid cooling plates to optimize cooling efficiency. Each type is specifically designed for different battery ...

Battery systems are developing towards diversification and high integration, and liquid cooling plates are increasingly showing trends of non-standardization, small batches, ...

Everyone wants a safe, durable, high quality and secure battery enclosure. However, finding the right information about these ...

This article provides a systematic overview of battery cooling plates, including their types, principles, manufacturing processes, and ...

Our engineering team will work with you to develop a manufacturable flow field plate for prototype and pre-production, and when you are ready to scale up, you can rest easy knowing you can ...

Dana Thermal Products, a subsidiary of Dana Incorporated, a global leader in thermal management technologies for the mobility industry, will establish a new battery cooling ...

Sogefi offers a full range of innovative battery cold plate solutions to meet the diverse needs of EV battery pack architectures. Laser welded extruded designs, and laser welded cold plates are ...

The battery module assembly process is a crucial step in the battery pack manufacturing process, where

individual battery cells are grouped into modules. This stage ...

Explore key types of battery liquid cooling plates--stamped, extruded, and harp tube--and learn how to choose the right one for optimal EV thermal management.

EV Battery Thermal Management System - Liquid Cooling System for Lithium Ion Battery In our last blog post, we covered Battery ...

Battery cooling plates Aluminium sheet for the production of battery cooling plates. Get in touch with us Cooling plates and thermal management Electrical vehicles and battery packs need ...

Cooling plates play a pivotal role in ensuring the efficiency, safety, and longevity of high-power battery systems. However, the manufacturing process of these components is intricate, ...

Abstract: Dive deep into the ToneCooling Mega Factory to uncover the cutting-edge manufacturing of high-performance liquid cooling plates.

For Battery Energy Storage Systems Are you designing or operating networks and systems for the Energy industry? If so, consider building thermal management solutions into your system ...

Discover the top 10 liquid cold plate companies in India. XD Thermal showcases leading firms excelling in innovative cooling solutions.
