-----

The project is far from finished. The next phase includes the installation of a battery energy storage system and a second solar power ...

Croatia recorded a landmark year for renewable energy in 2025, with solar, wind and renewable thermal power sources taking a leading role in the national electricity system for the ...

As Croatia accelerates its transition to renewable energy, understanding the price dynamics of power station energy storage systems has become critical. This article breaks down current ...

Hybrid solutions - such pumped storage power plants combined with wind and/or solar farms - are becoming increasingly important for the generation and storage of clean, renewable energy, ...

The project is far from finished. The next phase includes the installation of a battery energy storage system and a second solar power plant with an additional 40-megawatt ...

The Croatian Ministry of Environmental Protection and Green Transition has initiated a procedure to determine the need for an ...

Croatia's Ministry of Environmental Protection and Green Transition has initiated the process to determine if a full environmental impact study is necessary for the proposed 99 MW ...

The Korlat PV project involves the construction of a solar power plant on an area of about 150 hectares, a connection to the 110 kV transmission network, and a nearby facility for ...

The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of

up to EUR16.8 million in IE-Energy Projekt, a newly established ...

An energy storage system will soon be installed at the largest solar power plant in Croatia, which has a capacity of 3.5 MW, said Zeljko Tuksa, President of the Managing Board of Koncar - ...

The Croatian Ministry of Environmental Protection and Green Transition has initiated a procedure to determine the need for an environmental impact assessment for the planned ...

Summary: Explore how Croatia is advancing its energy transition through innovative power generation and storage solutions. Learn about renewable integration, grid stability, and the ...

An energy storage system will soon be installed at the largest solar power plant in Croatia, which has a capacity of 3.5 MW, said ?eljko Tuk?a, President of the Managing Board of Kon?ar - ...

The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of up to EUR16.8 million in ...

An energy storage system will soon be installed at the largest solar power plant in Croatia, which has a capacity of 3.5 MW, said Zeljko ...

In late September 2025, Croatia achieved a significant milestone in its renewable energy sector. The solar power plant in the city of Belisce became the first in the country to be connected to ...
