Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and sustainable transport solutions.

Northvolt, as one of the top 10 energy storage companies in Sweden, founded in 2015 by former Tesla executives, is a Swedish battery ...

Together with industry partners it carries out leading research on, for example, battery materials, energy storage and battery manufacturing. It ...

Sweden's largest battery storage system was commissioned in Gothenburg. Stena Recycling's subsidiary Batteryloop installed its BLESS III system, storing 2.8 megawatts in reused ...

Polarium specializes in lithium-ion battery technology, providing smart and sustainable energy storage solutions that support the transition to renewable energy. Their innovative modular ...

Near Volvo Car's production plant and new battery assembly factory in Torslanda, a gigafactory is under construction. It will be 100 percent powered by fossil-free energy and the ...

We're building a first-of-its-kind Li-ion battery Gigafactory in Gothenburg, Sweden, equipped with the expertise and technology to craft state-of-the ...

Explore how Gothenburg is shaping the battery industry. Discover innovations and investment opportunities in sustainable mobility today!

Gothenburg plays a key role in Sweden's green industrial shift, with a focus on electrification, sustainable

solutions, and the growing battery sector.

As China manufacturer of the custom energy storage battery, Large Power provides Lithium ion Battery storage solution for solar energy storage, UPS, industry, and commercial. ...

Summary: Gothenburg's new energy storage project addresses renewable energy challenges through cutting-edge battery systems. This article explores how this initiative supports ...

Our mission is simple: develop and produce the world's most sustainable battery -- ready to propel us into a more sustainable future. We're ...

6 March, 2024 | Gothenburg, Sweden - NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for ...

Together with industrial partners, it conducts leading research on, for example, battery materials, energy storage and battery manufacturing. Sweden's new testbed for ...

2016 Key takeaway Northvolt AB specializes in manufacturing sustainable lithium-ion batteries, emphasizing a significant reduction in carbon footprint through the use of clean energy. Their ...

Near Volvo Car's production plant and new battery assembly factory in Torslanda, a gigafactory is under construction. It will be 100 ...
