Who makes power distribution cabinets?

When it comes to developing, designing, and manufacturing power distribution cabinets, our team at DOHO is the leading supplier in the industry. We have over 10 years of experience helping clients with their cabinet power distribution needs, and our products are used in a variety of industries around the world.

Is Doho a good power distribution cabinet supplier?

If you're looking for a power distribution cabinet supplier that can provide the perfect solution you need, then DOHO is the right choice. You can trust us to provide you with the best possible quality of power distribution cabinets at the most competitive prices. Our products are affordable, reliable, and easy to install.

How much does a power distribution cabinet cost?

The cost of a power distribution cabinet can vary depending on a number of factors, such as the size of the cabinet and the features it includes. For example, a small cabinet with basic features may cost around \$1500, while a larger cabinet with more advanced features could cost closer to \$6000.

What types of power distribution equipment are available at the data centre?

At our Data Centre campus, we're proud to deliver a wide range of Power Distribution Equipment including LV Switchgear and fully integrated Modular Electrical Rooms- featuring Transformers, LV Switchgear, UPS, CRAH Units, and the latest Battery technology. Have a look over some of our recent Data Centre projects completed across the globe.
