-----

The design and development of a simple but efficient digitally controlled regulated power supply of a variable voltage ranging from 0v to 15v with a maximum output current of 5A ...

The utility model discloses a portable power supply unit is used in geophysical exploration relates to portable power source technical field. The utility model discloses a power supply housing, ...

SPP-400 is a new generation of DC power supply with lithium battery is portable and has a ultra-large capacity. It can provide eight selectable output voltages from 50v to 400v, which can ...

FNIRSI DPS-150 DC Power Supply Variable, 30V 5A Adjustable DC CNC Power Supply with 4-Digit IPS Display, <20mV Power Ripple, PD/QC/DC Input, PC Programmable Switching Power ...

Product information BP-150 Rechargeable DC power supply BP-150 has built-in three sets of 48V/2AH rechargeable batteries. There are three selection of output DC voltage : 50V, 100V, ...

The invention provides a towline high voltage direct current (DC) power supply for geophysical exploration, comprising an electro-magnetic interference (EMI) filter module, a buffer module, ...

The invention relates to a portable power source for a geophysical exploration instrument, and belongs to the technical field of geophysical outdoor exploration instrument equipment.

Multi-Channel High Power Intelligent System Geophysical Resistivity Induced Polarization Transmitter& Receiver device for Mineral Exploration The WDFZ Geophysical Induced ...

A high-voltage DC power supply and geophysical prospecting technology, applied in seismology, electrical

components, circuit devices, etc. in areas covered by water, can solve problems ...

Transient electromagnetics is a geophysical exploration technique in which electric and magnetic fields.

Serving industrial markets around the world, Geophysical Supply Company in Houston, TX proudly distributes wires, cables, and connectors. Inquire today.

The Bit Tradition RPC is sealed IP54 rugged portable computer with 8 x cPCI free slots and wide range AC/DC power supply.

Find the perfect variable/adjustable power supply for your testing needs. Get precise, adjustable voltage and current for prototyping, troubleshooting, ...

GSSI provides the widest range of ground penetrating radar and electromagnetic induction equipment available-covering all GPR survey ...

Whether conducting field exploration in harsh environments or conducting simulation tests in the laboratory, the APM power supply provides stable, high-power output, ...

The utility model belongs to the technical field of portable power supply devices, and particularly relates to a portable power supply device for geophysical exploration, which comprises a ...
