---

Imagine your local power grid as a giant bathtub - sometimes overflowing with solar energy at noon, sometimes nearly empty during peak Netflix hours. That's where 100MW energy storage ...

Global Hotspots: Where 100MW Beasts Roam Free Germany's turning into the storage equivalent of Oktoberfest - their 100MW/200MWh Arzberg project uses enough battery cubes to build a ...

From the UK to the UEA and USA to Australia, Energy Digital Magazine runs through 10 of the most impressive energy storage projects worldwide

Recently, Spanish renewable energy developer Matrix Renewables announced that it has signed a full-cycle Engineering, Procurement, and Construction (EPC) agreement ...

We are thrilled to announce that yesterday, October 14, 2024, SynCo Global officially signed the Transmission Connection Agreement (TCA) with ElectraNet's CEO Simon Emms for the ...

It includes the construction of a 100MW/600MWh vanadium flow battery energy storage system, a 200MW/400MWh lithium iron phosphate battery energy storage system, a ...

The first phase of the world's largest sodium-ion battery energy storage system (BESS), in China, has come online. The first ...

TotalEnergies develops battery-based energy storage solutions, which are essential complements to renewable energies, mainly in Europe and the United States.

Utility-scale battery storage will play a vital role in New York's clean energy future, especially in New York City where it will help to maximize the benefit of the wind power being developed ...

Recently, Narada Power successfully won the bid for the Phase II project of the 100MW/400MWh independent shared energy storage power station in Yumen, Gansu ...

Milestone Projects Grid Operation Xinhua Ushi ESS project is the world's largest grid-forming energy storage station utilizing vanadium flow battery (VFB) technology. It combines rapid ...

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the ...

The energy storage arm of Chinese solar PV inverter manufacturer Sungrow announced the signing of an agreement earlier ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin ...

The first 100MW-level hybrid energy storage frequency regulation project in China--the 100MW/50.43MWh independent hybrid energy storage project of StateCloud Microcontrol ...

Regulatory approval has been given for a 100MW / 400MWh battery energy storage system (BESS) facility which will be sited on land ...
