What is an IP54 cabinet?

Prism's IP cabinet range provides ingress protection to an IP54 rating and can be deployed in areas with high dust and moisture content. All Prism IP54 enclosures are sealed or welded in construction and fitted internally with compression gaskets, providing secure apertures and...

Why do you need an IP54 server cabinet?

Since electronic equipment is extremely susceptible to damage from external influences such as heat, cold or dust, and dirt deposits, costly new purchases can become necessary more frequently. In an IP54 server cabinet, all IT equipment can be stored neatly and compactly and protected from these very possible damages.

How much protection does an IP54 server cabinet need?

For an IP54 server cabinet, a degree of protection of 4 provides good protection against splashing water. Since server cabinets are not submerged, this degree of protection is usually perfectly adequate. Splash water protection is particularly useful for industrial use. An IP54 server cabinet can be a perfectly sensible purchase for many sectors.

Are prism IP54 enclosures non-returnable?

All Prism IP54 enclosures are sealed or welded in construction and fitted internally with compression gaskets, providing secure apertures and... Please Note: These products are built-to-order and therefore non-returnable.
