What is a standardized IP55 protection code?

The IEC's standardized International (or Ingress) Protection Code system is used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit). Continue reading to learn more about IP55 Standard Protection Specifications.

Where can I find IP55 enclosures?

Find IP55 enclosures at Bison Profab,offering reliable protection against dust and low-pressure water jets. Learn about IP55 specifications and ideal uses.

What is ip55/ip65 certification?

IP55/IP65 Certification from 3rd party testing lab. Cold Rolled steel,201 stainless steel,304 stainless steel,316 stainless steel as well as galvanized steel,which will suit your various requirements and budgets.These quality materials can protect the equipment against harsh weather conditions like rain,wind and sand storms.

What are the requirements for outdoor cabinets production?

Outside size: Outdoor cabinets production depend on the project requirement for design and dimensions, using either plinth in the ground or installation on the quide plate. Doors: Open 180 degree with adjustable locking device and three point locking system on each front, side and rear doors.
