What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

Where is Japan's first fully merchant battery energy storage system located?

One of Japan's first fully merchant battery energy storage systems has begun commercial operations, with Manoa Energy announcing the news this week for its Helios 50 MW /104 MWh battery project in Sapporo, Hokkaido, in the snowy north of the country.

What is Eku Energy's first energy storage project in Japan?

Eku Energy announces its first energy storage project in Japan with a 30MW/120MWh battery in Miyazaki, backed by a 20-year agreement with Tokyo Gas. Unlimited access to Archives included in Professional invoice *Prices are excluding VAT, which may vary depending on your location or professional status

When did Hitachi start delivering a grid energy storage system?

Operations officially commenced on August 1. This project marks Hitachi's first delivery of a grid energy storage system in Japan. The entire process—from design and procurement to installation and testing—was seamlessly managed as a "One Hitachi" initiative, leveraging the comprehensive capabilities of the Hitachi Group.

Eku Energy unveils the 30 MW Hirohara Battery Energy Storage System in Japan. This battery will supply power to 63,000 homes for 4 hours and is Eku's first project in the ...

Eku Energy, a global specialist in energy storage, launches its first project in Japan with the Hirohara battery energy storage system. ...

Ekus Energy has begun its first battery storage project in Japan, while Gore Street Capital has raised funding for the country's first energy storage-dedicated fund.

The nascent grid-scale energy storage market in Japan now has its first-ever dedicated investment fund, to be jointly managed by ...

By 2030, official estimates show variable renewable energy reaching 20% of Japan's power mix. Noting the demand case and ever ...

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This ...

Ekus Energy, the UK battery platform of Macquarie's Green Investment Group (GIG), has launched the construction of its first energy storage project in Japan, a 30-MW/120 ...

One of Japan's first fully merchant battery energy storage systems has begun commercial operations, with Manoa Energy announcing the news this week for its Helios 50 ...

Gurin Energy has appointed Saft as the technology provider to a gigawatt-hour-scale battery energy storage system (BESS) in Japan.

One of Japan's first fully merchant battery energy storage systems has begun commercial operations, with Manoa Energy ...

Following these discussions, in 2023 we began developing EV Battery Station Chitose, the first grid-integrated energy storage project ...

The approval of this project under the Tokyo Energy Storage Investment Limited Partnership marks an important step in supporting Japan's 2050 net zero commitment.

Ekus Energy unveils the 30 MW Hirohara Battery Energy Storage System in Japan. This battery will supply power to 63,000 homes ...

A total 1.67 GW of projects won contracts, including 32 battery storage systems totalling 1.1 GW and three pumped hydro energy ...

MATSUSAKA, Japan, Dec. 11, 2025 /PRNewswire/ -- SINEXCEL (300693.SZ) has successfully completed the installation of its first utility-scale 2MW/8MWh energy storage project in ...

Japan s first energy storage project
