What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Where can cube outdoor enclosures be used?

Cell towers, business parks, campuses, data centers, strip malls, sports stadiums, oil fields, wind farms, solar fields, lift stations, utility sub stations and traffic systems all rely on our expansive line of industry-leading CUBE outdoor enclosures. As connectivity skyrockets, so does the cost of service interruptions.

Leading global manufacturer of indoor and outdoor NEMA 3R to 4X enclosures for Telecommunication, Aerospace, Green Energy, Oil Gas and Utilities markets.
