Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

Exposing thermal batteries to real-time market signals would help lower system costs and strengthen America's manufacturing base and AI infrastructure, write Katherine ...

For energy storage, the new Chinese policy emphasized the need to remove energy storage as a prerequisite for renewable energy project grid connection, a requirement ...

Top energy storage & battery news platform covering technical articles, industry tenders, EV batteries, grid storage & upcoming energy events worldwide. - The Battery Magazine

Global demand for energy storage is surging. Lithium-ion leads today, but new contenders like sodium-ion, flow, and gravity systems are shaping the future grid.

Columbia Engineering scientists are advancing renewable energy storage by developing cost-effective K-Na/S batteries that utilize ...

Most battery-powered devices, from smartphones and tablets to electric vehicles and energy storage systems, rely on lithium-ion ...

For the first time, Texas' main power system looks set to generate more power from solar farms than coal plants during a calendar ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

STATEN ISLAND, N.Y. -- Applications for 58 battery energy storage systems were approved by the NYC Department of Buildings in 2025 and another 98 are currently under ...

Batteries It can feel impossible, at least for a nonspecialist, to stay current on research into new kinds of "regular" batteries, never mind ...

Looking for storage that backs up your whole home in case of an outage or other major event? Check out our guide to the best whole home backup batteries.

Energy storage beyond lithium ion explores solid-state, sodium-ion, and flow batteries, shaping next-gen energy storage for EVs, grids, and future power systems.

Wins in competitive solicitations for large-scale battery storage projects in India have been announced by KPI Green Energy Ltd and Power Grid Corporation of India in the past few days.

This perspective article provides a detailed exploration of the latest developments and future directions in energy storage, particularly focusing on the promising alternatives to ...

As new storage technologies like flow batteries gain traction and as the energy storage value chain becomes more localized and ...
