How do I maintain my Eaton IBC battery?

Contact an Eaton service representative for battery maintenance. Battery replacement and maintenance should be performed only by authorized service personnel. The shelf life for the batteries installed in the IBC vary by battery type/model, see Chapter 7 Product Specifications for details.

How do I connect my Eaton 93pm ups to my IBC-SW?

Refer to the applicable Eaton 93PM UPS Installation and Operation manual listed in paragraph 1.7 For More Information, for UPS cabinet termination requirements. Route the battery wiring between the UPS and subsequent IBC-SWs through the bottom of the adjacent IBC-SW. 9.

Where can I install a 93pm integrated battery cabinet?

Eaton 93PM Integrated Battery Cabinet-Small Welded Line-up-and-match battery cabinets are installed adjacent to the UPS. The IBC-SW can be installed on either the left or right side or on both sides of the UPS cabinet (see Figure 2). Figure 2. Eaton 93PM UPS and Two 93PM IBC-SWs -- Various Configurations

How many batteries does the Eaton 93pm IBC-SW have?

Figure 1 shows the Eaton 93PM IBC-SW. The IBC-SW is equipped with valve-regulated lead-acid (VRLA) batteries. The 432Vdc version contains a single string of 36 batteries and the 480Vdc version contains a single string of 40 batteries. Removable battery trays with quick disconnects between trays reduce battery maintenance time.

There are promising developments for both lithium and lead battery technologies in data center applications. While lithium offers benefits such as higher energy density, less floor space, and ...

This manual contains important instructions that you should follow during installation and maintenance of the UPS and batteries. Please read all instructions before operating the ...
