Can battery energy storage systems transform business in the Philippines?

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from cost reduction to energy supply stability, BESS is a compelling solution. While the initial investment may vary, the long-term advantages are undeniable.

Who provides fractionalized battery energy storage?

We are partnered with NexVolt, the first in the Philippines to provide fractionalized Battery Energy Storage. NexVolt, through their cutting edge technology, ensures even Small Medium Enterprises (SMEs) can adopt inexpensive battery energy storage systems and kickstart their journey towards energy independence. What is Masinloc battery energy storage?

We started our venture into battery energy storage technology in 2018 when we acquired the 10 MW Masinloc Battery Energy Storage System (BESS) of the Masinloc Power Plant from AES Philippines. The Masinloc BESS is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia.

What is a battery energy storage system?

One such solution gaining significant traction is Battery Energy Storage Systems (BESS). These cutting-edge systems are revolutionizing the way commercial and industrial companies manage their energy needs.

Ready to explore storage solutions that match your energy profile? Our team can help you compare quotes and technical specifications from top-rated Manila manufacturers.

Blue Sigma Philippines Inc. is a premiere innovator and manufacturer of advanced Battery Energy Storage Systems (BESS). We are passionate ...
