-----  
What size rack is available for a network cabinet?

The 800 mm widerack is also available for a network cabinet. Our cabinets are the EIA standard 19" server rack. The sizes are available in 24U, 42u and 48U to get the most height out of your data center space. All of these rack options come standard with 2 vertical cable management bars that are the same height of the rack.

How deep are server rack cabinets?

Depth is the least standardized of the various server cabinets. Height can be in rack units (U) and width at 19 inches, but depth requires more precise attention. That's why it is so crucial to know about the standard server rack cabinets depth range.

What size server & network cabinets are available?

With the most extensive array of sizes ranging from 42-52RU, heights of 600mm to 800mm (23.62" to 31.5"), and depths of 36" to 54", providing server and network cabinets that meet any specific requirements.
