What is irrigatia solar automatic drip irrigation kit?

The Irrigatia solar automatic drip irrigation kit system is a weather responsive automatic watering system that uses solar power to detect the weather and alter watering according to the conditions and the season - providing plants with precise irrigation. The more sun it receives, the more water it will give your plants!

What is a weather responsive irrigation solar automatic watering system?

This weather responsive irrigation solar automatic watering system uses solar power to detect the weather and alter watering accordingly. The two sizes can be used for pots, raised beds, hanging baskets, vegetables or inside a greenhouse. Read more

Do automatic watering systems work in indoor and outdoor gardens?

Yes, automatic watering systems can work in both indoor and outdoor gardens. For indoor plants, we might use self-watering pots. For outdoor gardens, drip irrigation or soaker hoses can be effective. What are the essential components of an efficient drip irrigation system?

What is included in a solar automatic drip irrigation kit?

Each solar automatic drip irrigation kit includes the SMART controller with integrated pump, inlet filter, anti-siphon, water level sensor (with 5m cable), 15m tube, 12 drippers, stakes, tees, 3 x AA rechargeable AA batteries. Carbon-neutral, Family-owned business that promotes sustainability!
