Can a solar canopy fit a parking facility?

Parasol products can accommodate any solar panel, for any parking facility, providing optimal yield, flexibility, and unparalleled value. The trusted experts in large-scale solar canopy design and installation. Parasol designs, manufactures and installs elegant, high-performance solar structures for parking facilities.

Who can use a solar carport?

To date, we have delivered 350 MW of solar carport projects for municipalities, large transit authorities, federal government agencies, corporations, K-12 schools, colleges and universities, retailers, automotive centers and more. Our solar carport experts are ready to help you design and install your project with confidence. Get in Touch

Does a solar carport meet UL 2703 bonding and grounding requirements?

Parasol Structures, a leader in the design and manufacturing of solar carports and renewable energy parking structures, is excited to share that Intertek testing has confirmed that our patented SOLFLEX carport system meets UL 2703 bonding and grounding requirements!

Discover IP55-rated solar power cabinets for outdoor installations. Ideal for solar panel systems and energy storage. Find robust enclosures built for reliability and long-term performance in ...

This battery cabinet provides a compact solution for your complete solar powered battery system with minimal impact on walkways along the side ...

This innovative project seamlessly integrates a state-of-the-art solar photovoltaic (PV) carport with a high-efficiency liquid-cooled outdoor cabinet to create a smart, sustainable, and self ...

This battery cabinet provides a compact solution for your complete solar powered battery system with minimal impact on walkways along the side of your home. The flexible design suits a ...

Battery Racks & Enclosures NAZ Solar Electric carries high-quality racks and enclosures for your batteries. We stock a wide range of sizes to fit your specific needs. We carry racks and ...

Our solar-powered portable parking lights will ensure your lot is adequately lit at night, while our EV charging metal cabinets will protect the components of your charging station.

EcoDirect offers battery boxes, racks and enclosures for off-grid energy storage applications in solar PV systems. These products support the most common battery types.

We offer pad and pole mounted enclosures for single and multiple batteries and pre-wired back panels with solar controllers, DC to AC inverters, DC to DC Converters, POE"s, and customer ...

Generac PWRcell battery cabinet for Solar Power Systems Scales Usable Energy from 9kWh to 18kWh. Add a second cabinet for up to 36kWh total ...

A parking lot design is available on most SecTER cabinets that provides multiple locations for parking standoffs, portable feedthrus, and other cable accessories.

Solar batteries, also known as solar energy storage systems or solar battery storage, are devices that store excess electricity ...

With durable construction the Outdoor Type 3 power cabinet incorporates tailored thermal systems (fan/filters, air conditioners, Heat exchangers, ...

In-stock and custom battery enclosures that handle all weather environments, maintain productivity and offer specific designs to help ...

The outdoor battery enclosure is a housing, cabinet, or box that can be used outdoor and specifically designed to store or isolate the battery and all its accessories from the external ...

Compare top outdoor battery cabinets for solar systems. Learn about durability, weatherproofing, and security to choose the best cabinet ...

Parasol Structures transforms ordinary parking lots into renewable energy powerhouses. We design, manufacture and install solar parking structures that generate clean, lower cost energy ...
