What is a fire rated enclosure (IP66)?

depending on their location and for areas with the possibility of high temperature. Fire Rated Enclosures (IP66) can be designed for outdoor environment with excellent dust proof and water proof properties. For Coastal areas or marine application, the cabinet are design with AISI 304L or AISI 316L which provides high Corrosion Protection.

What are the features of IP66 cabinets?

Features of our IP66 cabinets include: - Complete protection from solid objects of any kind. - High pressure jets from all directions,(limited ingress permitted). - Enclosure can be hosed down, eg. Ship decks. Often called rain tight enclosures due to their excellent weather resistance.

What is an IP66 electrical enclosure?

IP66 electrical enclosures are equivalent to NEMA 4 and NEMA 4X enclosures. International Protection(IP) standards are used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit).

What is a sysbel 90min battery charging Safety Cabinet?

SYSBEL 90min Fire Resistant Battery Charging Safety Cabinet The SYSBEL 90min Fire Resistant Battery Charging Safety Cabinet is designed to comply with the stringent requirements of the EU Battery Directive and adheres strictly to the fire protection structure standard EN14470-1. SYSBEL Fire Resistant Battery Charging Cabinet Features:

Designed for safe storage and charging, our lithium-ion battery storage cabinets meet UK safety standards and prevent thermal runaway - ...
