What's going on in Riga?

This deal marks the beginning of a major solar energy project at the port of Riga, which will include the installation of solar panels, the production and storage of renewable electricity, and the development of hydrogen and alternative fuel technologies.

Will a solar energy park be built in the port of Riga?

Today, on 9 September, an agreement was signed between the Freeport of Riga Authority and the Lithuanian company SNG Solar on the lease of land in the Port of Riga in the Spilve Meadows area for the development of a solar energy park.

Will a Solar Park transform Riga into green energy?

Home Port News Major solar park set to transform port of Riga into green energy... On 9 September, an agreement was signed between the Freeport of Riga Authority and Lithuanian company SNG Solar for the lease of land in the Spilve Meadows area of the Latvian port.

How much will SNG solar invest in Freeport of Riga?

SNG Solar won the auction organised by the Freeport of Riga Authority for the land lease right and at the beginning of May the Freeport of Riga Board decided to enter into an agreement with the Lithuanian company. The total investment in the park is expected to be between EUR 60 and 80 million.

SNG Solar will build the 100 MW solar plant within five years, as outlined in the agreement. The project will involve installing solar panels, connecting them to a 110 kV line, ...

Solar energy storage isn't just about saving money - it's about energy independence. As Riga moves toward its 2030 carbon neutrality goals, combining solar panels with smart storage ...
