In this scenario, the utility is responsible for procurement and delivery of energy to the seller, as well as scheduling of the generating ...

The term ""energy storage tolling agreement"" refers to a long-term PPA-type structure. In this article we will explore the term and its origins further, as well as providing links to two sample ...

Decide whether to include solar + storage projects in a procurement based on storage benefits for addressing energy cost savings and/or resilience use cases at specific sites.

The negotiation of an engineering, procurement and construction (EPC) agreement for a battery energy storage systems (BESS) project typically surfaces many of the same contractual risk ...

Ever wondered why utilities and corporations are scrambling to master distributed energy storage procurement? From megawatt-scale projects in China's innovation hubs like Xiong'an to bite ...

Energy Storage Components: The Unsung Heroes Powering Our Modern World Let's face it - energy storage isn't exactly the talk of the town at dinner parties. But what if I told you these ...

The checklist items contained within are intended for use in procurement of commercial scale lithium-ion BESS, although they may be used more generally for other BESS technologies.

Understand what's important in an RFP for BESS procurement, components and BESS quality inspections. Improve your battery energy storage supply chain and FAT planning.

A well-structured BESS procurement contract minimizes risks and ensures project success. By clearly
