---

In order to expand the use of perovskite solar cells (PSCs), the "Next-Generation Solar Cell Strategy" has been formulated, which aims to introduce 20 GW of next generation ...

The plan comprises two key components. The first involves installing "1MW photovoltaic + 4MWh energy storage" microgrid systems ...

Solar cell manufacturing in the EU has grown 0.6 GW from 2022, with 7 active companies in this segment. There are 57 active module manufacturers in the EU. The EU recently adopted a ...

Solar is the key focus technology among renewables, according to the plan shared by the Japanese Ministry of Economy, Trade ...

Reliance Industries has commissioned its first solar panel manufacturing line, advancing its USD 10 billion renewable energy plan. ...

The project plans to build an annual production of 25GW solar cells and 20GW photovoltaic modules The total investment of Tongwei Solar Photovoltaic Industry Project is ...

Recently, Japan's Ministry of Economy, Trade, and Industry (METI) announced plans to deploy approximately 20GW of photovoltaic ...

Small-scale solar faces headwinds from rising transmission tariffs (due to new 2022 net metering regulations), difficulty getting permits, competition with wholesale market, and import taxes on ...

On the same day, TCL Zhonghuan announced plans to build a factory in Saudi Arabia, and will sign an agreement with the VI and RELC to set up a JV company, jointly ...

Reliance Industries says that production will begin at its 10 GW factory for solar cells and modules by 2024. It plans to double the ...

California's MCE and Golden State Clean Energy (GSCE) are partnering on a solar initiative, the first step in a broader plan to deploy up to 20GW of solar and 20GW of ...

California community choice aggregator MCE and developer Golden State Clean Energy (GSCE) have partnered to work on a solar and storage project in California, the first in a plan to install ...

On the same day, TCL Zhonghuan announced plans to build a factory in Saudi Arabia, and will sign an agreement with the VI and RELC ...

Reliance Industries Ltd announced its intent to commission its first solar giga-factory within the current fiscal year, planning an initial 20GW solar PV capacity by end of ...

The plan outlines a preferred portfolio across the six states that would add 1,302 MW of new solar by the end of 2024 and 1,902 MW by the end of 2026.

This factory will be pivotal in Reliance's strategy to reach net zero carbon emissions from its operations within a decade and a half. The giga-factory will initially focus on ...
