What is solar & storage live Dubai?

Solar & Storage Live Dubai is recognised as the region's leading solar and energy storage exhibition, highlighting advanced technologies that support the transition to a greener, smarter, and more decentralised energy system.

How much solar power does Dubai have in 2022?

In 2022, United Arab Emirates' installed solar PV capacity is around 2940 MW, increased from 2632 MW in 2021. The country launched a renewable energy initiative in 2015 named - 'Dubai Clean Energy Strategy.' It is expected to shape the future of Dubai's energy sector over the years and aims to provide up to 25% by 2030 and 75% by 2050.

What is the future outlook for solar energy companies in UAE?

Solar Energy companies in UAE are poised to benefit from the market's future outlook, which remains optimistic with ongoing investments and technological advancements expected to drive further growth and contribute to a cleaner and more sustainable energy landscape.

How will Dubai's solar PV market shape the future?

It is expected to shape the future of Dubai's energy sector over the years and aims to provide up to 25% by 2030 and 75% by 2050. The strategy of the UAE on the solar PV market consists of five main pillars: infrastructure, legislation, funding, building capacities, skills, and creating an environment-friendly electricity mix.
